<b>Soft Skills</b>	Team Work, Problem-solving, Communication, Leadership

## EXPERIENCE

### Red Panda Network – Software Engineer (MERN)

November 2025 – Continue

- Built full stack features for a MERN based application using React, Node.js, Express, and REST APIs
- Converted Figma designs into responsive, reusable UI with Tailwind CSS.

### Fixitze – Software Engineer (Vue.js + Laravel)

June 2024 – November 2025

- Built complete web applications, handling both frontend with Vue.js and Tailwind CSS and backend with Laravel.
- Integrated APIs to connect the frontend with the database and keep data updated in real time.
- Used Tailwind UI components & Tailwind CSS to create clean, responsive layouts that work on all devices.
- Managed code updates on GitHub for version control and deployed changes to the live server.

## **Freelance Frontend Developer (React)**

2024 – 2025

- Converted Figma designs into pixel-accurate React websites.
- Integrated REST APIs and handled state/async data.
- Built responsive layouts with Tailwind CSS and tested across devices.

## **Frontend Developer - Intern (React)**

Apr 2023 – Jul 2023

- Contributed to PoemsOcean a Laravel + React platform where writers can post poems and readers can browse by category.
- Built responsive layouts with Bootstrap and turned Figma designs into working pages.
- Managed backend features in Laravel, including user authentication and content organization.
- Used GitHub for version control and deployed updates to the live server.

## **PROJECTS**

---

**Pamper Pro** MERN barber booking platform with multi-barber support, client bookings, and admin tracking.
